

THE TEXAS INDEPENDENT PRODUCERS AND ROYALTY OWNERS ASSOCIATION

STATE OF ENERGY REPORT SERIES

OIL & NATURAL GAS EMPLOYMENT AND ESTABLISHMENTS REPORT
FOR Q1 2014

ABOUT TIPRO

The Texas Independent Producers & Royalty Owners Association (TIPRO) is a trade association representing the interests of over 2,800 independent oil and natural gas producers and royalty owners throughout Texas. As one of the nation's largest statewide associations representing both independent producers and royalty owners, members include small businesses, the largest, publicly-traded independent producers, and mineral owners, estates, and trusts. Members of TIPRO are responsible for producing more than 85 percent of the natural gas and 70 percent of the oil within Texas, and own mineral interests in millions of acres across the state.

INTRODUCTION

As a supplement to the recently published 2013 “State of Energy Report,” TIPRO is pleased to release employment and establishment data for the U.S. oil and gas industry from the first quarter of 2014, the most current data available at the time of publishing this report. A full State of Energy Report for 2014 will be compiled upon the release of updated U.S. census data and will include additional economic data tracked by TIPRO, including wages, payroll, and oil and natural gas production figures.

Key State and National Findings:

- The U.S. oil and gas industry added 12,400 jobs in the first quarter of 2014, for a total of 1,025,200.
- The U.S. oil and gas industry added 640 new businesses in the first quarter of 2014, for a total of 42,700.
- Texas added 2,400 new jobs in the first quarter, the largest increase in the country, for a total of 414,000 jobs.
- Colorado added the 2nd highest number of jobs at 2,200, followed by North Dakota at 1,900.
- Texas added 218 new oil and gas businesses in the state, the largest increase in the country. Total oil and gas related businesses in the state equal 12,500.
- California added the 2nd highest number of new businesses, followed by New Mexico, then Louisiana.

Detailed statistics for national and state oil and natural gas employment and establishment data can be found in the following appendices.

All 2014 Q1 data is preliminary. The full State of Energy Report for 2014 data will be available next year and will include all economic data tracked by TIPRO, including wages, payroll, and oil and natural gas production figures.

OIL & GAS EMPLOYMENT BY STATE

METHODOLOGY

All data is derived from the U.S. Bureau of Labor Statistic's QCEW (Quarterly Census of Employment and Wages) Series. The data from this source provides the most comprehensive source of industry data at the state level and allows for a true state-by-state comparison using the same data source. This series collects data from the state unemployment reports and as a result supplies a census of employment and establishments information. Establishments are single economic units, usually a single location. Companies often have multiple establishments at multiple locations. The term 'businesses' may be used to refer to an establishment to facilitate ease of use and understanding.

2014 data is for the first quarter of the year. As such, the 2014 data does not represent the complete year of 2014, and will tend to undercount sectors that are growing when compared with the full year of 2014.

DEFINITION OF THE OIL AND GAS INDUSTRY:

NAICS CODES-	SECTOR-
211111	Crude Petroleum & Natural Gas Extraction
211112	Natural Gas Liquid Extraction
213111	Drilling Oil & Gas Wells
213112	Support Activities, Oil and Gas Operations
2212	Natural Gas Distribution
32411	Petroleum Refineries
32511	Petrochemical Manufacturing
333132	Oil and Gas Field Machinery and Equipment
4247	Petroleum Merchant Wholesalers
486	Pipeline Transportation
