TIPRO MEETS IN SAN ANTONIO AUGUST 12-14 FOR ISSUES UPDATE AND FUN AT THE HYATT HILL COUNTRY RESORT

Families always enjoy hopping on a tube and floating on the Ramblin' River.

Hot topics and hot temperatures will merge for a cool time at TIPRO's Annual Summer Conference August 12-14 (Thursday – Saturday) in San Antonio at the Hyatt Hill Country Resort. Politics, tax and environmental issues will balance networking with colleagues and fun with family and friends at this great end-of-summer venue.

The Summer Conference will be the first official meeting to be led by TIPRO's newly-elected Chairman of the Board Steve Castle of Cowboys Resources. For many members, it will also be the first opportunity to meet TIPRO's new staff leadership President Justin Furnace; Senior Vice President Rich Varela and Director of Public Affairs Teddy Carter. Each will add commentary on their new initiatives as well as a foundation for what members can anticipate in the Texas Legislative Session that begins in January 2011.

Kicking off the meeting will be a golf tournament at the award-winning 27-hole Arthur Hills champion golf course. TIPRO's new Chairman Steve Castle will close the event Saturday night with the Chairman's Dinner and casino night. Attendees are encouraged to bring their families for summer fun at the Resort which includes a lazy river tubing ride and other family amenities.

TIPRO welcomes sponsorship support—please contact Rich Varela for details. Registration details are posted to TIPRO's website. Please call the Hyatt Hill Country at 800-233-1234 for room reservations.

TIPRO TO PROVIDE COMMENTS TO EPA AUGUST 2ND AND 3RD

The EPA Regional Administrator in Region 6, Dr. Al Armendariz, has announced two public meetings in Arlington, TX and Denver, CO on August 2nd and August 3rd, 2010 respectively. The EPA's Office of Air Quality Planning and Standards is currently reviewing air regulations affecting the oil and natural gas industry and will solicit input from the public. The review covers oil and natural gas exploration and production as well as natural gas processing, transmission, storage and distribution.

There will be opportunities to provide input on Monday, August 2nd from Noon to 4pm and 6pm to 10pm in the Arlington City Council Chambers (101 West Abram Street). Rich Varela will provide comments on behalf of TIPRO in an effort to prevent imposition of additional regulatory burdens on the oil and natural gas industry. We encourage all members to attend and show their support for our industry.

PUBLIC AFFAIRS UPDATE

On July 21, 2010, six Texas Congressional democrats, along with ten democrats from other states, sent a letter to U.S. House leadership in which they took a strong stance against any overreaching oil spill legislation that would cause damage to the oil and gas industry. Attempting to grow Texas participation in this effort, TIPRO issued a letter to the six Texas democrats who had not signed the letter, urging them to join their colleagues in doing what is right for Texas. We also sent out a call-to-action urging TIPRO members to contact their U.S. Reps and encourage them to fight against attacks on the industry disguised as oil spill legislation.

The recent ramp-up on federal issues comes amid reports of movement on reactionary Congressional legislation prompted by the BP oil spill in the Gulf. Of the bills considered as possible umbrellas for consolidated oil spill legislation, the bill that has emerged as the vehicle of choice is H.R. 3534 - the Consolidated Land, Energy, and Aquatic Resources Act, or the CLEAR Act. Although this 220-plus page bill emerged with significantly less impact to onshore oil and gas operations than its counterparts, it is still loaded with onerous language for industry and is worthy of a call to your Congressional representative urging opposition. See the full bill text at:

http://frwebgate.access.gpo.gov/cgi-bin/getdoc.cgi?dbname=111_cong_bills&docid=f:h3534rh.txt.pdf

We are monitoring the Clean Energy Jobs and Oil Company Accountability Act in the U.S. Senate that was released this week by Senate Majority Leader Harry Reid. The text of this bill can be found at:

http://democrats.senate.gov/pdfs/The_Clean_Energy_Jobs_and_Oil_Company_Accountability_Act_of_2010.pdf

On the State front, this week the Texas Commission on Environmental Quality voted to move forward with publication of new proposed rule changes concerning Permit-by-Rule and the Standard Permit for oil and gas operations and facilities. The public comment period begins August 13, 2010, and TIPRO's new Environmental Task Force and our State Issues Committee are actively working to craft comments for submittal. We also intend to testify at the public hearing scheduled for September.

As Director of Public Affairs, I am committed to protect and advance the interests of the entire TIPRO membership. It is my hope that these updates will provide you the knowledge and comfort that we never stop working for you. Thank you for placing your trust in us. Should you wish to contact me, I can be reached at headquarters, (512) 477-4452, or via email at tcarter@tipro.org.

Teddy Carter

AGENDA

Thursday August 12, 2010

1:00 pm Golf Tournament
